

## Press Release

### Babilou Family keeps on growing with the opening of its 1000th daycare center worldwide

Currently established in 12 countries, the Babilou Family group is pursuing its growth and the promotion of its pedagogical practices to support children's sustainable education with the opening of its 1,000th owned daycare center worldwide.

The launch of the semi-open-air center in Saint-Herblain (Loire-Atlantique) embodies the Group's commitment to an approach which places nature as the children's third educator, enabling them to fully express their potential.

Saint-Herblain is the first of Babilou Family's nurseries in France to feature as much outdoor space as indoor space (more than 400 square meters of garden).

This enhanced outdoor living approach is part of a virtuous ecosystem: everything is thought out to strengthen nature awareness and the challenges associated with it (short circuits, fair use of natural resources, etc.).

This new opening reflects the ambitions of the Babilou Family group: to set a new benchmark for tomorrow's daycare centers.

#### Babilou Family in a few figures
